PAST PERFORMANCE

Medical Coding, Records Management **United States Army Medical Command**

Mindseeker serves as the prime contractor for the United States Army Medical Command (MEDCOM), which retains medical records for the Army Medical Command (MEDCOM) for active-duty service members, family members and beneficiaries, retirees, civilian trauma, and other categories of patients. Mindseeker deployed ~70 staff members in support of medical record coding and management activities across more than 10 million medical records per annum and includes the program and project management of records management actions, to include the staff and management of operations for 18 medical treatment facilities spread across the Central, Pacific, and European Regions; total contact award is \$100M and includes a base and four periods for each of the three regions.

Professional and IT Services and Support **Millennium Challenge Corporation**

Mindseeker serves as a Prime Contractor for the Millennium Challenge Corporation (MCC). Created by the U.S. Congress in January 2004 with strong bipartisan support, MCC partners with the world's poorest countries that are committed to just and democratic governance, economic freedom and investing in their populations. The contract award has a ceiling value of \$65M and includes numerous labor categories across seven OPM job families to include positions in information technology, financial management, program and administrative support, legal, and more. The contract accounts for 40 to 60 staff members servicing programmatic roles that are in direct support of MCC's overseas development mission across forty-three (43) low and lower-middle-income countries.

Information Technology Support, Staffing, and Consulting Services **Navy Federal Credit Union**

Mindseeker has a sterling track record supporting Navy Federal Credit Union (NFCU) in business transformation and management functions by providing experienced professionals across a host of operational disciplines to include cybersecurity, IT infrastructure development, digital services, and human capital. Mindseeker, via a Master Services Agreement (MSA) with NFCU, currently has more the 45 staff members supporting NFCU programs throughout the National Capital Region (NCR) as well as other CONUS locations. Support functions include project management, web management, cybersecurity planning, threat testing, data engineering/management, risk management, staff augmentation, human resources, and instructional design.

Health Care Quality Information Systems (HCQIS) Infrastructure and Data Center Support (HIDS) **Department of Health and Human Services, Centers for Medicare & Medicaid Services**

Mindseeker serves as a subcontractor to Ventech Solutions Inc. (VSI) in support of the US Department of Health and Human Services, Centers for Medicare and Medicaid Services by providing infrastructure services for the Healthcare Quality Information Systems Value Based Purchasing (VBP) and Standard Data Processing System (SDPS) application groups. The prime contract is valued at more than \$600M. As the subcontractor, Mindseeker has deployed more than 25 staff members and provides VSI in performing call center support services for the technical infrastructure components of the QualityNet environment, which include wide-ranging services to include: Hosting a data center, Network management, UNIX and Microsoft server management, Configuration management, Validation Testing, Stress Testing, Project Management, Security, Help Desk, Production Support, QIO System Administration, and ESRD System Administration.
